Hazardous Material & Air Cargo Security Compliance Notice

Re: Hazardous Materials Registration / 49 CFR §107, Subpart G

Tax-Air is registered with the Department of Transportation per above regulation.

Re: Hazardous Materials Employee Training & Testing / 49 CFR §172.702 and §172.704

All Tax-Air employees involved in the processing, handling and transportation of hazardous materials are trained and tested in accordance with the requirements outlined in the above regulation.

Re: Hazardous Material Security Plan / 49 CFR §172.800 & 172.802"

All Tax-Air employees are trained and tested in accordance with the requirements outlined in the above regulation. Drivers and freight handlers undergo pre-employment screening including previous employment verification and criminal background checks. Tax-Air's security plan and training does include controlling access to all cargo during transport and storage and does require all transport vehicles to be locked during transit.

Re: C-TPAT

Currently, the C-TPAT program does not include domestic carriers. However, Tax-Air meets the security criteria per C-TPAT guidelines and will continue to review this program for eligibility.

Re: Air Cargo Security / Indirect Air Carrier Shipper Security Program

All Tax-Air personnel, involved with the movement and/or handling of air cargo, have been trained regarding the security of air cargo as outlined in the above mentioned directive.

Please contact Marian Rezel, Sr. Manager of Compliance & Service Assurance for further details.
